but it was agreed to—Ayes 36. Ness 19.
The committee then role, said the bill was ordered to be engraled.
Mr. Bondium reported a bill to feasify the claims of

the widow of the late Major General Lord Sterling.

THURSDAY, AUGUST 5.

The bill for appointing two additional commissioners to the berid for ferting the accounts of the United States with the individual states, was read a third time,

and puffed the house.

The kill for the relief of the widow of the late Lord Stelling, was desired in committee of the whole, and reparted to the hour.

A perition from Alexander M'Comb, and William

was read and referred to the Secretary of the

Treafery.

A relation was agreed to, that the Secretary of the Treafery be ordered to take meafares for building a light-louie at Porland Head, in the Province of Main not mescrete the fun of 15 pan dollars. On motion, the refulction was referred to a committee to bring in

Mr. Williamfon faid a motion on the table, in fub-Ennce as follows—" Her not errifeste be granted by the Speaker to any member for his pay until the end of the fellion." This he did in order to prevent a thin

The feither." This he did in order its present a thin Lonfent to critical a time as the prefent when the Ways and Means Bill is yet to be yalled, and perhaps other momentums buffered may be introduced.

Mrs. Bedon moved to differance the committee which had been appointed to report on the fees necessary to be allowed to the Officers of the courts of the United States, and to refer the fullyed to the Attimmey General of the United States, and to refer the fullyed to the Attimmey General of the United States, and to refer the fullyed to the Attimmey General of the United States; which was agreed to.

A notifice was received from the President, that he had figured the bill for the fettlement of the ac-

had figured the bill for the ferdement of the ac-course of the United States with the individual flarer. Mr. Blosdworth, agreeably to notice by him given, called up his mixing, viz. "That a committee be ap-pointed to bring in a bill to falpend for a limited time the 5th fection of the reddence cluerd achoise.

The debate was commenced by Mr. Vining, who

facke nearly as follows:

fpeke nearly as follows: In protected, if possible, a very difagreeable difcustion upon this irritable question. I rife, Sir, to call the previous question, Viewing this motion as I now do, I confest it appears to me at best, to be only an infuncer compliment to the citizens of New York, calculated neher to tearedize then to feenre to them any folid be-neher for what fair anticipations of faccess can they nefit; for what fair anticipations of faceds can they here, when they review the various experiments and lengths infention which this buttor shas already undergone? Has it not been fully trief in both hone? And are we again to be infulted and paragraphed for doing only when we conceive to be our duty? Are the bandages to be viclently torm from wounds now the bandages to be violently turn from wounds now slands health, by a diffeution upon the merits of a question which has been so laboritothly debated and tried, as the one now pyrefeated for pur consideration? I lope not. Sir. As to the expense which has been flated as accruing from dead reast, I will alk any liberal and candid using. What will they amount to when compared with even the natural expenses which will result from the passage of a bill of this nature? Did not geatleness, but a few weeks finer, tell us that we were protracting the festion to an untrassnable length? not gentlenen, but a few weeks finhe, tell us that we were protracting the fellour to an survationable length? And now they are bringing forward the fame foshelt, after the mell follows legislative decision. Have not sail the arguments which they can now adduce in farour of the refolation, the force of reaction? and do they of operate in a direction the most powerfully again

set operate in a direction the most powerfully againthe preferct motion.

But, Sir, any I appeal to the good lenfe of the hoofe,
whether should this botinets possibly fucceed, its operation might not eventually reduce the Prefedent of the
United States to a very diffagreeable dilemma: if he
head diffagree to the measure, that gart of the commainty which would feel the disappointment with
most ferthishity, might fay that the Prefedent of the
United States, for the first time, had refused his fignature and aften to a hill which had raffied his fignature and aften to a hill which had raffied his fignature and aften to a hill which had raffied his fignature and aften to a hill which had raffied his fignature and aften to a hill which had raffied his fignature and aften to a hill which had raffied his fignature of partiality; or, on the other hand
to the hill, might not an imputation of inconfidency
be levelled at him by another part of the commanity?

Add, furely, this is not a very delicate or a very polite and, farely, this is not a very delicate or a very polite fination to expole the Prefident of the United States to. I trult herefore it will be availed by the adopti-on of the previous quellion, and that we may be per-mitted in previous quellion, and that we may be per-mitted in previous quellion, and that we may be per-mitted in prevend on the reft of the ballonis now before ns. Whether we discharge our public duty or not, will gelt in the good sense of our conflinents—their remedy is in our responsibility, and if we bare not ferved them well, they have it in their power to redress themselves by more fairstactory elections, and the choice of better men—at leaft, in the flation we at prefent fill, we have a right, both to Accricans and legislators, to exercise an independent judgment. Under this impression I have disclosed my fense of the motion new before

16th 26 for the fettlement of the arching between the sance and inderación, which he recommended to the

High for the fetelement of the arctions between the Uhited States and individual States.

The house were not a constitute on a will further to make providing for the delay of the Uhited States, for the first respects the extraption of the debt of the fact of Georgia; a siter from time spent thereon, the committee rote and reported certain amendments.

On the question to order the hill engressed, it was negatively half to the hill was recliced.

Mr. Mondison from the committee appointed, preferred according to order, a hill no said two committees the transfer of the state of the first of the state of the state

Obst. was personal com-by noify larguage.

Mr. Vining called Mr. Bloodworth to order.

Mr. Parker role to offer his reasons for supporting Mr. Vining, in calling the previous question, and quotted sone rules of order in the British Parliament of 1604. He lakewise asserved that he thought the pre-fers motion of Mr. Bloodworth both impolitic and ex-censive.

pentive.

Mr. Lawrance reminded the gentleman laft up, of his own coaded upon a former oceasion; when the Senate had rejected Philadelphia, that gentleman was the fift to introduce a motion not unlike the pre-enc-But, in reply to the arguments used against the regularity and conditiency of the motion, why need we go fur ther than to the case which has this day appeared? A bill has this day passed the honse, in amendment to bill for the fettlement of the accounts of the United States with individual States, which has this day re-ceived the function of a law. Mr. Lawrance proceed-ed to defend Mr. Bloodworth from the infingation that lind been thrown our against his foreity, and replied to fuch part of Mr. Vining's speech as he faid to thought worthy of notice. He shed, where was the necessity to remove to Philadelphia, which was not the permanent relidence? And be restricted the different arguments which had been used on former occitions.

cations.

Mir. Vining then expredded a defire to withdraw his motion of caising for the previous queftion, in order to give a more ample room for difcultion, but the Speaker informed him that it was contrary to the rules of the house, and that it was not in his power to withdraw his motion in the prefent inflance.

The previous question being put, the main question, was then called for, riz. Whether the house would preceded in Mir. Bloodworth's motion, which was negatived, years 23, noes 35, as follow:

cd, yeas 23, noes 35, as follow:

AYES,

Moffer. Benfon, Bloodworth, Frke, Floyd, Foster,

The house made some progress with respect to Mr. The house made fome progress with respect to Mr. Smith's motion, for ordering the Secretary of the Treasury to proceed in the disposal of the lands of the Western Territory—and one of the proposed resolutions was agreed to, viz. for appointing a Surveyor. General to complete the survey of the lands heretofore foldunder the resolution of the old Congress, This being agreed to, a committee of Medin, Page, Smith and White, were appointed to bring in a bill accordingly. A mediage being received from the Senate, with their amandments to the Ways and Means bill, the house took the fame under confideration, and having made some progress, adjourned till comprose.

made fome progress, adjourned till to-morrow.

For the HAMPSHIRE GAZETTE.

For the HAMPSHIRE GAZETTE.

NOTHING has a more powerful influence over the mod than caftom or habit. Even the fondness for movely implasted in our dispositions, and cariofity herfelf, do not always prove a sufficient counterposite to this force. From this force arise nonziners, which commonly accompanies the lost of any object we have a long time known. It was the keying of an ancient Philotopher, who was so fentished the truth of this observation, that he would not willingly part with even an oil post he had long heen acquainted with. Hence from the power of habit over the mind we not unfrequently are contented with and acquiefce in ills and inconveniences that might easily be removed. Hence, therefore, the maxim, That necessity is the mother of inventionari improvement. Indeed almost every species of improvement have their origin from the weight and pressure of necessity. The winder is therefore not so much eye any project of improvement hould at any time he made, as that it get should be made. And propofals of this call do bridly ever find their way into existence without a very great degree of probable advantage. Thus mach, I conceived, not mal approp, top rainferto the following short excellent of the sheem for building a Bridge over Weisfield River, near Stephen Nobles's tavern, at a place called Pawcatuck Falls—Tho object of which is to open a searer and better road into Connection. If this proposal is the store of the store of the following the orthogeness. Pawcauck Falls—The object of which is to open a wearer and better road into Connecticut. If this pro-poral takes effect it will be from Northampton Mecc-ing Houte to Abraham Burbanks's, Etg'r. in Feeding Hills, (fo called) little more than eighteen miles—and nor more than forty-one, or at most forty-two miles from Northampton to Hartford—whereas the roads now used from their circumstances pass currently at fif-ty—befides the read laid open by this bridge will wholly avoid the two worth hills between Southampton and Hartford—who is excludible. wholly avoid the two worth hills between Southampton and Hartford—thofe are the hill this fide, and the one a little beyond the town of Wesseld, called Martindales hill, which is long, steep and stony. There will therefore be a faving to the publick of, I suppose, at least four miles in the distance, besides a much better

was the primary

road through Southampron to Hartford than un, tentrofree ravelled.

Though fome and avours have formerly becaused we procure this bridge to be erected at the public reside, they have all failed—the pomonters therefore of the fehrem were induced to open (abletipions) for the purpole of railing a (mikient) fum, suching doubting that as foon as the advantages are experienced, the maintenance thereof will readily be afformed by the public. They have accordingly raifed in the fostlern part of this county already one handred and thing of forty pounds, and are encoursed with more affiliate from feveral rowns in Connecticut, whole of ist in encreases and improve their interconfe with ou. But they will probably need further ald and encoursement to complete the firm needlary, freposed to be bout two hundred and fifty pounds, they have provided a number of fubferiptions to circulate in the upper part of the Conney, thereby to furnish an opportunity for the exercise of that public fiptic and particulate which for peculiarly characterizes the people of this countries to prisonal with those who incline to favour fethere, to furnish either materials or eath, as that he most agreeable. For the recept of which, fo foon as fafficient turn that he fubferibed, a committee will be most agreeable. For the receipt of which, so some as fafficient sum shall be subscribed, a committee will be appointed, & allo to superintend the appropriation of e-penditure of the same, who will be under purper in junctions for the saithful discharge of their true.

junctions for the lauthful distange on their sing. There is nothing in which we are more indie in or than in the opinion we too offer form of the importance of reads and bridges. I support it is because the advantages are fo gradual and almost imperceptible to be nearly exclosed by the mind, while on the otter hand the expences affail us with their aggregate at combined order. May those who doubt calculate, it is counted by the counter of the counter o request of

THE SINKING FUND BILL.

Has, we leare, passing the Senate—ship Bill makes provision for the reduction of the public debt, by proposing that, One Million of Dellars now in the Treasury of the United States, be applied to purchasing the public debt in the markets the the fame is under par—the same to be made open, and with due regard to the equal beacht of the feveral States—Mills, That the President of the United States be authorited—to bear of the Treasure and the same purpose; The befines to be under the direction of the President of the Senate, The Chief Justice, The Secretary of Senat, The Secretary of the Treasury, and the Astronomy of the President of the Secretary of the Treasury, and the Astronomy of the President of the United States are to cause the purchases to be made.

EXTRACT.

"The preposition for arplying the furples of one million to parchasing up the public delot at the market price, while that price is at a discount, mid merica proposition of every friend to the United States—And the patriotic, independent policy which faggeded the measure, it one cannog the unity other cut-dences, of that ever wakeful vigiliance, which market the operations of the Treasure designation. the operations of the Treasury department KEY OF THE BASTILE.

KEY GF THE BASTILE.

Lat week the Key of the Baffle, accompanied with
a fine drawing of that famous building, was prefented
to the Prefident of the United States, by John Rutledge, jun. Edg. to whale care they were committed, by
the illustrious patriot the Marquis de la Fayette, for that purpose.

THE BRAFE SAILOR.

Extract of a latter from Lender May 29.

"Nothing ever gave me greater pleasure, than the conduct of a failor, on occasion of one of the late impeliment. The honest lart, as we have finest learn, had been eight months ablent on a voyage to the Bay of Honduras, and had just returned to his family with his land carner pittines, gleaned from the favings of wages and a small restore he had taken our with him. Bonne may acquarate he had cleaned being a latter of the latter of th By one means and another he-had efcaped being imprefied till his arrival is London, when he with fome other fractaing men in a beer house were forgounded, and and red and by the Capitain of a prefix gang to four ender, and tubrit to be carried on hoard one of his Majety's renders then lying in the river. The failor defired them to than off at the period of their lives, boflerving, at the fame time, "that he was a free mas, was born duch, and fo intended to continue; —that he preferred falling on board a merchantman to a man of war, and had a right to his choice, that the quarrel of the King of Englisad with the King of Spain was nothing to him, and that he would kill the fift feponder! Englishman or Spainard, that flood dare to make any attempts e means and another he had escaped being imman or Spaniard, that should dare to make any attempts

upon his liberty."

Notwithstanding these menaces, the gang attacked Notwithflanding their metaters, the gang attricked the boule, but were glad to there off after Ioning three of their number by pilot floor. Certain it is, that are birrary acts of this kind are unjustifiable except in cafes of extreme necessary, & even then it is doubtful whether refishence in familar cafes to the above, would not have a good effect interving as a check to the ambition of princars, who, as having never experienced the miferies to which this gallant race of men are failiged on the warry element, have little or 7th feeling for them, when their ambitions is convenient and the blood of thousands in a flake neckans for a for of feeritory at the extreme is an extra fail of the form of the form of the control of the form of the form of the form of the control of the control of the form of the control of the control of the control of the form of the control of the co is at flake perhaps for a foot of territory at the extremities of the globe, which neither of them have ever feen, and which will eventually in all probability, be-

DIED -At Conway, on the 16th inft. Capt. No AH

d 71. r East-Haddam, the 22d ult. Mr. WEEKS WILLIAMS. Howas born at Hadley, Feb. 14,1690.

At Albany, Mr. NATHAN VAN NETTS, aged 124

Samuel Willard,

RESPECTFULLY informs the Gentle RESPECTIFULLI I mitotats the Grants the American men in the mercantile line in this and the neighbouring rowns, that he has lately received by configure meant from Mr. Tamaz. Lee, of Cambridge, a quantity of SILKS to a confiderable amount, confiding of

LUTESTRINGS. MODES, SARSNETTS, FRINGE HANDKERCHIEFS. RIBBONS, SEWING SILK, &c.

Which he has commission to dispose of by WHOLE HE HAS COMMINDED OF TOPICS OF WHOLESALE, at a very moderate advance. The Luteflyings are rich and elegant, and the Silks in general are of a good quality. If any should feel disposed is infped them, he gives them a most cordial invitation to came and fee.
